

ORIGIN POOLS

The ultimate home improvement

Transforming your home with a bespoke pool house is the ultimate in home improvement. It allows you to create a place of relaxation, wellness and fun all in the comfort of your own home. Origin knows that a swimming pool can not only add value to your home but to your home life as well and there are many decisions to be made along the way. Attention to detail and precise planning are crucial when designing a successful swimming pool and pool house as the process is quite unlike any other building project and requires more than just finding a competent builder.

It's important to understand that indoor pools require specialist design in three major areas: the pool chamber, the building structure and the management of the pool building environment (heating, dehumidification and ventilation). All

of these specialisms should be integrated into a consolidated design from the start, to avoid disruptive, complicated and potentially costly alterations after your pool house has been built.

This is where Origin comes in. Simply put, they do it all. Building swimming pools requires a holistic approach with all the key elements working together from the beginning. Origin eliminate the need to employ separate companies by managing the whole process for you, from concept to completion. Access to a pool right on your doorstep means it's easy to swim and exercise everyday in the privacy and safety of your own home. They've been building award winning swimming pools for over 40 years and in that time have successfully completed thousands of pools and pool houses to a wide range of specifications.

Swimming has many benefits, as well as the obvious, it improves quality of sleep and reduces symptoms of anxiety and depression. Origin believes owning a pool is about more than the pool itself: by adding a spa, sauna or yoga room your swimming pool and pool house could be a centre of wellness. If you're looking to increase family time, your pool house could become a new social hub for everyone to enjoy by adding a gym, lounge area or even a bar. Whilst jumping in can seem daunting, making the decision can bring measurable benefits. A new pool from Origin provides new ways of having fun, spending precious time together as a family and makes the idea of a staycation more appealing.

Whatever you're looking to achieve, Origin has experienced it all and are available to help you

create your dream pool, managing every stage from start to finish, giving you the confidence and freedom to enjoy finally swimming in your own home. Origin's experts can discuss requirements, guide you through the options and produce a fully costed proposal and design allowing you to undertake the ultimate home improvement so you can finally achieve the perfect work life balance. ■
